ACR Electronics Remote Control Searchlight RCL-100LED with Master Controller and Wired Pad Controller

The LED version of our most popular RCL-100D searchlight provides high intensity LED performance that pierces through dark nights and low lighting conditions with a blazing 220,000 candela. The RCL-100 LED's traditionally sleek design makes it an attractive and cost effective choice for sport yachts, mega-yachts, sport fishers, and light commercial vessels. With more efficient LEDs, the RCL-100 LED has reduced power consumption demand by up to 50% on 12V vessels. Ultra bright 9 LED array generates over 220,000 peak candela. Efficient, long lasting LED's - 40,000 operating hours.

Rugged, triple-primed and sealed, marine grade aluminum housing. 15' wiring harness included.

LED Cluster Bulbs

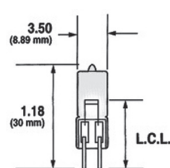

Each LED draws only 10 mAmp per hour and has a life expectancy of up to 100,000 hours. These bulbs barely get warm, making them very safe to use. Bases are corrosion resistant nickel-plated brass. These lamps will fit many fixtures on your boat, car or RV.

Important Notice: Navigation lights are tested and approved as a fixture with the original equipment source (bulb) already installed. The operator of vessel assumes all liability when using this product as a replacement for the original approved light source. The use of this LED light source in individual navigation fixtures has not been evaluated for compliance to USCG, COLREG, or any other navigational lighting standards or regulations.
