

Electrical BATTERY SWITCHES

PERKO®
Made in the USA

Perko Battery Selector Switch

For use with two or more batteries and single or dual engine systems.

- Permits selection between batteries for starting and charging, or operation of both batteries in parallel.
- For use in systems under 50 volts.
- Rated for 250 amps continuous, 360 amps intermittent.
- For dual engines where two switches are required.

Order No	Mfg No	Type	List
700069	8501DP	Standard	\$59.33

PERKO®
Made in the USA

Perko Main Battery Switch

- Ignition protected.
- Surface mounted in red plastic housing with large, black plastic knobs.
- Main disconnect "ON/OFF" switch.
- For use with systems under 50 volts.
- Rated for 250 amps continuous, 360 amps intermittent.
- 5-1/4" diameter x 2-5/8"

Order No	Mfg No	List
703473	9601DP	\$74.28

PERKO®
Made in the USA

With Alternator Field Disconnect

Alternator Field Disconnect will interrupt the field current (reducing the possibility of damage) if turned "OFF" with the engine running.

Order No	Mfg No	List
340984	8503DP	\$92.85

PERKO®
Made in the USA

Perko Heavy Duty Battery Selector Switch

- For use with two or more batteries and single or dual engine systems.
- Permits selection between batteries for starting and charging, or operation of both batteries in parallel.
- For use in systems under 50 volts.
- Rated for 380 amps continuous, 850 amps intermittent (15 seconds on, 5 minutes off).
- For dual engines two switches are required.

Order No	Mfg No	List
340995	8603DP	\$247.35

PERKO®
Made in the USA

Perko Heavy Duty Battery Disconnect Switch with Alternator Field Disconnect

- For use 6, 12, 24 and 32 volt marine electrical systems.
- Capacity - rated 450 Amps continuous, 1200 Amps intermittent (15 seconds on, 5 minutes off).
- For use in systems under 50 volts.

Dimensions" 5-1/4" square; depth 3-3/8".

Order No	Mfg No	List
341006	9703DP	\$235.40

BLUE SEA SYSTEMS

Blue Sea Systems

Shore Power / Generator Selector Switch

- 2 positions plus Off.
- Switches 2 - 120 or 230 Volt AC sources.
- Compact solution when circuit protection is provided elsewhere.
- Allows connecting one of two different AC sources to one circuit.
- Mounts in panels up to 0.16" (4.00mm) thick.
- Heavy duty industrial rated switch.
- Intuitive function - One hand operation.
- UL Approved.

Order No	Mfg No	Amp Rating	List
386330	9009	30A	\$149.99
386341	9019	65A	\$389.99

BLUE SEA SYSTEMS

Mini Add-A-Battery Kit - 65A

- Don't get stranded — Add a Battery! Adding a second battery to the electrical system prevents the unintended discharge of the engine start battery.
- Primarily designed for outboard powered boats with alternator output of 65A or less.
- When installed, the Mini Add-A-Battery isolates the start battery from the house loads which prevents the discharge of the start battery.
- The M-Series Dual Circuit Plus™ Battery Switch simplifies the switching while the M-ACR automates charging between two batteries.

Order No	Mfg No	List
386680	7649	\$137.99

BLUE SEA SYSTEMS

Blue Sea Systems e-Series Battery Switch Circuit Plus™

- Allows temporary isolation of house loads from engine circuits during engine cranking to protect sensitive electronics
- Automatically combines battery banks during the charging cycle and isolates under discharge
- 12/24 Volt auto ranging voltage input
- Waterproof - Ignition protected.
- Remote LED indicates various functions
- Supports high-output alternators up to 120 Amperes
- Activates from any charging source - alternators, battery chargers, or solar panels

Continuous Rating: 120 Amperes DC

Intermittent Rating: 210 Amperes DC

Terminal Stud Size 3/8"-16 (accepts M10 ring terminal)

Maximum Cable Size 1/0 AWG

233198	2101	No	\$78.83
233197	2100	Yes	\$91.48

GUEST

Guest Cruiser Series Universal Mount Switch

- Without Alternator Field Disconnect.
- Installs in the same cutout and hole patterns as competitive switches.
- High-impact, black molded cases are impervious to petroleum-based liquids for long life.
- Diameter: 5-1/2".

Order No	Mfg No	List
233169	2111A	\$46.90

GUEST

Guest Heavy Duty Battery Selector Switch

- Heavy-duty switch is designed for the high amperage of marine service.
- Especially important for the large currents needed to start diesel engines.
- Rated at 360 amps continuous, 600 amps momentary, with alternator field disconnect.
- 5-1/2" square base x 3-1/2" high.
- Four mounting holes on 4-1/2" centers.

Order No	Mfg No	List
233201	2300A	\$211.65

GUEST

Guest Extra Heavy Duty Diesel On/Off Switch

- A heavy-duty on/off switch with alternator field circuit disconnect for use where high amperage service is required, such as starting diesel engines.
- Rated at 600 amps continuous, 900 amps momentary.
- 5-1/2" square base x 3-1/2" high.
- Four mounting holes on 4-1/2" centers.

Order No	Mfg No	List
233202	2304A	\$296.38

BEP
LEADING ELECTRICAL DESIGN

BEP 701 Panel Mount Battery Switch

Designed specifically for panel mount applications. This range gives a very compact, versatile solution with the following features:

- Removable key.
 - Standard 2 1/16" hole cut out
 - Ignition Protected.
 - Full access for cables with no restrictions.
- Continuous Rating: 275 Amps DC
Intermittent Rating: 455 Amps DC
Cranking Rating: 1250 Amps DC
Voltage Rating: 48 Volts DC
Operation: On/Off

Mounting: Recessed or Surface
Ignition protected
Termination Stud Size: 2 x 10 mm (3/8 inch)
Dimensions: 69 x 69 x 75h mm (2.75 x 2.75 x 3h inches)
Tin plated copper studs and nuts

Order No	Mfg No	List
352159	701 PM	\$36.13

BEP
LEADING ELECTRICAL DESIGN

BEP Master Battery Switch

- Patented contour lock system, allowing it to be a stand alone unit, or locked together with other switches.
- The control knob also features an interchangeable labelling system allowing a full range of applications.
- Removable side plates on 4 sides for access of up to 1/0 cables plus a rear cover insulating the rear terminals against any short circuits. This ensures the switch meets ABYC requirements. The 701 can be either surface or recess mounted.

Continuous Rating: 275 Amps DC
Intermittent Rating: 455 Amps DC
Cranking Rating: 1250 Amps DC
Voltage Rating: 48 Volts DC
Operation: On/Off
Mounting: Recessed or Surface
Ignition protected
Termination Stud Size: 2 x 10 mm (3/8 inch)
Dimensions: 2.75" x 2.75" x 3" H
Tin plated copper studs and nuts

352137	701	\$41.23

BEP
LEADING ELECTRICAL DESIGN

BEP 701S-PM Panel Mount

- Fits standard BEP battery switch label range.
 - CSK recessed for surface mount application
 - Standard 2 1/16" hole cut out (Same as standard gauge hole)
 - Ignition Protected
 - Full access for cables with no restrictions
 - Fit into Contour Connect Panel
 - Continuous Rating: 200 Amps DC
 - Intermittent Rating: 300 Amps DC
 - Cranking Rating: 1000 Amps DC
 - Voltage Rating: 48 Volts DC
 - Operation: 1-2-Both-Off
 - Mounting: Recessed or Surface
 - Ignition protected
 - Termination Stud Size: 3 x 5/16"
- Dimensions: 69 x 69 x 75h mm (2.75 x 2.75 x 3h inches)
Tin plated copper studs and nuts

BEP
LEADING ELECTRICAL DESIGN

BEP Digital Voltage Sensing Relay (DVSR)

The DVSR (Digital Voltage Sensing Relay) allows charging of two independent battery banks from a single charging source. When charging stops and voltage falls, the DVSR will disengage, isolating the two batteries from each other. Dual sensing functionality enables the sensing of two battery banks, allowing two way charging.

BEP
LEADING ELECTRICAL DESIGN

BEP Version 8 Remote 500 Amp H.D. Remote Motorised Battery Switch

High current, remotely activated battery switch.

Allows convenient operation with the remote switch while the battery switch is positioned where cable runs can be minimized which allows smaller gauge cable to be used, resulting in cost and weight savings.

As well as remote, motorised operation, the 720-MDO can be manually over-riden.

From the "Manual Off" position, the switch knob can also be removed, providing security, particularly during servicing.

Tinned copper conductors, stainless steel nuts and high temperature, fibre reinforced plastics.

Ignition protected.

On/Off switching operation, and may be recessed or surface mounted.

Guest On-Board Battery Charger 10A (5/5), 12V; 2 Bank 120V Input 2711S

- Redesigned inside and out. New design includes leading advancements in digital charging technology and waterproof design/construction. Every Guest charger has a dedicated charging, sensing and control per bank.
- All high frequency, digital charging technology.
- Fully automatic 5-stage performance charging.
- Dedicated battery charging, sensing and control per bank.
- Expanded LED charge status monitor.
- Wiring and battery fault detection.
- Auto-maintain energy saver mode.
- Up to 40% lighter.
- 100% waterproof (IP67) and shock resistant for all fresh and salt water applications.
- Wired for easy installation.
- For all 12V flooded and AGM lead acid batteries.
- Built-in safety: reverse polarity, over-voltage, over-temperature and ignition protection. In-line fuses for maximum DC wire protection. 2 year warranty.

Marinco On-Board Battery Charger 20A 12V; 2 Bank 120V Input 2720A

Guest On-Board battery chargers have been redesigned from the inside out with the customer in mind. Our newest generation On-Board Marine battery chargers include leading advancements in digital charging technology and waterproof design/construction. Every Guest charger has a dedicated charging, sensing and control per bank. The easy to read graphics indicates the status of each battery bank through the charging process.

- All high frequency, digital charging technology
- Fully automatic 5-stage performance charging
- Dedicated battery charging, sensing and control per bank
- Expanded LED charge status monitor
- Wiring and battery fault detection
- Auto-maintain energy saver mode
- Up to 40 percent lighter
- 100 percent Waterproof (IP67) and shock resistant for all fresh and saltwater applications
- All models are pre-wired for easy installation
- For all 12 volt flooded and AGM lead acid batteries
- Built-in safety: reverse polarity, over-current, over-voltage, over-temperature and ignition protection. In-line fuses for maximum DC wire protection.
- 2 year warranty

Moeller Roto-Molded Battery Boxes

Seamlessly designed to tackle the elements for long-life battery performance.

- Non-corrosive high-strength polyethylene construction resists chemicals and rust.
- Maintains tough properties with nominal 0.185" wall thickness on roto-molded (mixed linear-black) boxes.
- Complies to industry requirements and meets Coast Guard regulations (E10).

Schumacher 2/10A

12V Automatic/Manual Traditional Charger

- Economical 12 volt charger can be used two ways: manual or fully automatic.
- No overcharging worries when in fully automatic mode.
- 10 amp fast charge – for everyday charging needs. Charges in 3 to 5 hours.
- 2 amp trickle charge – charges a small 12 volt battery in 2 to 12 hours
- LED light – signals Fully Charged.
- CSA Certified.

Pro Mariner Portable

1.5 A Battery Maintainers - 1.5A 1 Bank - 120 Volts Input

- Ideal for sport fishing, ski boats, jet skis, ATVs, etc.
- Provides batteries with precise maintenance mode, safe for long and short term battery storage.
- Fully automatic - may be left unattended while keeping your battery charged and extending its life.
- Built in protection for ignition, reverse polarity, over temperature and short circuit.
- Multi-use design, easily configures for on-board or portable use
- Concealed mounting holes and die cut foam resting pad for portable use
- Expanded LED display for Power, Charging and Auto Maintain status
- Maintain 12 volt lead acid (sealed and vented) batteries up to 150 amp hours
- Quick connect DC clamp and ring terminal cable assemblies
- Weatherproof and water resistant to IP65
- Built-in safety with reverse polarity, short circuit, temperature and ignition protection
- Pre-wired for easy installation
- 3 year warranty

Schumacher Ship 'N Shore Charger/ Maintainer/Tester

For 6 or 12 Volt Marine, Deep-Cycle, Automotive, AGM and Gel Cell Batteries.

15 Amp Fast Charge - charger monitors battery condition and adjusts charge rate downward to prevent battery damage; for car, truck, marine, RV, farm equipment, AGM, gel cell and deep-cycle batteries

2 Amp Slow Charge - for charging small batteries and maintaining large ones; charges motorcycle, ATV, snowmobile and lawn tractor batteries

Easy-To-Read Digital Meter

System Test - helps diagnose problems with battery and charging system*

Promariner Gen. 3 Pro Sport Battery Chargers

- Distributed-On-Demand™ Technology
- Automatically charge and maintain engine crank battery while sensing and distributing 100% of the available charging amps to trolling motor or house bank battery.
- Fully charge and extend the life of your batteries with ProSport's multi-stage performance charge profiles. Automatically charges and conditions your batteries with a built-in safe maintenance mode for long or short term storage.
- 3 Charge Profiles - User selectable performance charge profiles for: Flooded(lead-acid)/STD AGM, GEL & High Performance(HP) AGM.
- Compact and rugged design, 100% waterproof and shockproof, dual inline DC safety fuses for trolling motor / accessory battery banks, dynamic thermal output control, over voltage, overload, overtemperature, reverse polarity, and ignition protection. Prewired for easy installation

ProNautic P Series

3 Bank Dry Mount Battery Chargers

Up to 12 performance and precision 4-stage charging profiles: Charge, Condition, Maintain and Re-condition. Automatic power mode for 12 volt DC lighting and appliances. Factory set for Flooded (Lead Acid) batteries. AGM, GEL selectable.

Auto-ranging (100-250 VAC/50-60Hz) global AC input with reduced harmonic distortion allowing all models to operate off a household power outlet connection. Automatically programs conditioning time based on discharge stage of batteries. Automatically de-sulfates batteries after 21 days in the maintain mode, improving reserve power performance and extending battery life.
