DP40-W-C

Beckson Screw-Out Deck Plates

Designed to provide access without the use of tools. Features single start, non-jamming (no cross-thread), extra strong, self-cleaning buttress thread. Self-aligning center and gasket to assure a watertight seal. Backup sealing wall leaves the plate waterproof even if the gasket is removed. The clear center plate permits observation of controls or gauges and visual inspection without removing the plate.

AMERITOOL GAS CHARGED HATCH SUPPORTS

Ameritool Fixed Force Gas Filled Hatch Supports

High quality American made 316 stainless steel fixed force gas filled hatch supports are self-contained pneumatic devices capable of producing very large forces. Each gas spring is pressurized with nitrogen gas and contains a small amount of lubricating oil with the cylinder. They offer superior visual appearance and quality. Used in opening or closing hatches, doors, safety lids, etc.

End Mount Thread: M6 MS 1

Hardware

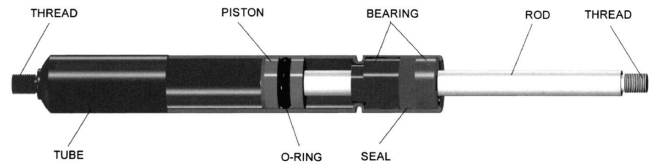

WHITECAP GAS CHARGED HATCH SUPPORTS

Whitecap Gas Charged Hatch Supports

Self-contained, nitrogen-driven. Patented, multilobe seal, which combined with corrosion resistant chromium shaft offers superior service life and performance. 2-year warranty.

- Heavy gauge steel body with heat-cured paint or 316 stainless steel.
- O-ring insures proper sealing to force oil towards the orifice piston.
- Hydraulic fluid specially formulated to provide end of travel damping.
- Piston assembly provides precise control during the extension stroke.
- Do-it-yourself replacement
- Installs in minutes
- No special tools needed.

See previous page for mounting hardware.

Hardware

DOUBLE LIP TRIM • WEATHERSEAL • HATCH GASKET • WEATHERSTRIP ADHESIVE

Clean Seal EPDM D Gasket

Ethylene-Propylene-Diene-Monomer is well known for its excellent ozone, weathering, and aging resistance. It also has excellent water and steam resistance, maintains its flexibility at low temperatures, features excellent resistance to alkalis, acids, and oxygenated solvents, and is very color stable. It is not recommended for resistance to oil, gasoline, and hydrocarbon solvents. EPDM is found in a wide range of applications and is excellent for use outdoors.

EPDM's service temperature ranges from -20°F to 300°F.

.875" wide x 1" high. Self-adhesive for easy installation on most smooth surfaces. Sold by the foot.

Ronstan Cam Cleats

Designed for easy cleating and releasing of control lines in every
application and load condition. Through the use of advanced
composites, these cleats achieve superior performance while
overcoming the limitations of metal alloys. Ronstan cam cleats
are strong, lightweight and corrosion free. Small cam cleats
hold rope up to 5/16". Medium cam cleats hold 1/8" to 1/2"
diameter.

"T" Cleats

Lightweight hi-tech composite cams are corrosion free and long
wearing.

Ronstan Utility Blocks

There are many uses for these simple, economical and reliable blocks. They are often used for light duty purchase systems such as dinghy boom vang, cunninghams, leech line tackles, bunk adjusters, etc. Stainless steel cheeks and Acetal sheaves ensure a long service life with virtually no maintenance. Blocks with hollow rivets accept the RF 807 shackle becket. Loop top blocks are suitable for direct splicing to rope or use with shackles.

1-1/8" Sheave Diameter - 1/4" Line

Sea Dog "It Floats" Floating Winch Handle

Patented design is made by way of air assist injection molding instead of foam filled method, thus preventing any potential leakage of foam from within the handle. Both sizes feature ball bearings in the handle to ensure smoother action under load. Also available is the dip molded PVC winch handle holder, Sea-Dog part number 724200.
