Raritan PHEII Marine Toilets

Made of quality materials including porcelain bowl, high grade plastics and time tested seals. High capacity, double action piston pump. Lever handle minimizes pumping effort. Air vent reduces back pressure and eases dry pumping. Can be used with marine sanitation devices and/or holding tank. Easily replaceable seal cartridge. May be easily upgraded from manual to electric with installation of PHECKII Electric Conversion Kit.

PHEII Electric

Same as manual model (PHII) except that it operates with the push of a button.

Heavy duty push button switch is included with PHEII.

Note: Household size bowls available on special order basis only.

Order No	Mfg No	Type	List
601293	PHEII-12	12 V Electric	\$1,450.00

Raritan 12V Atlantus Freedom Macerating Electric Toilet

One piece china bowl.

System utilizes "Vortex Vac" discharge pump.

Anti-clog "power shred" discharge system.

Quiet "whisper flush" models available.

Simple flexible installation.

Heavy-duty attractive stainless steel flush handle.

Low power consumption.

Three modes of operation - fill, dry flush or fill and flush.

Easy to clean and maintain.

Diaphragm intake pump can be run dry.

Microprocessor control and solid state circuit breaker.

No fuses or relays inside the unit.

12 VDC.

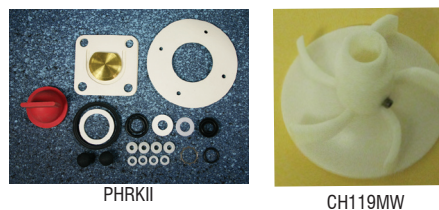

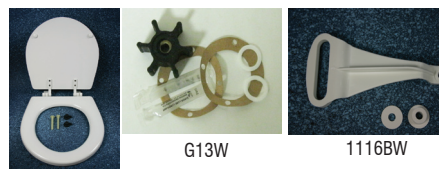

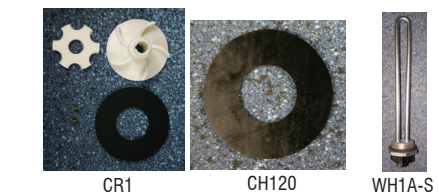

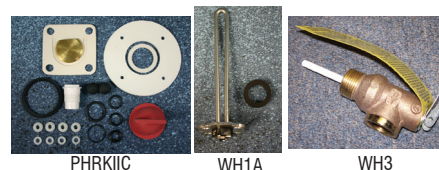

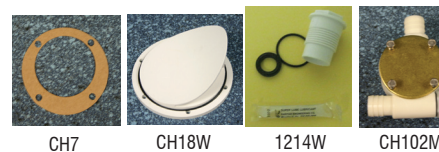

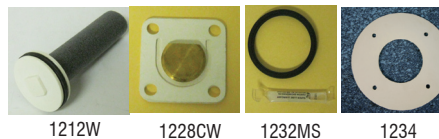

Multifunctional Momentary Switch (Wall Mount)

*This feature not included in model A712.

Note: Available on special order basis only.

Sealand® Portable Toilets

Produces powerful flush at the touch of a button! Robust, bowl-clearing flush every time. Easy-view level indicator. Self-contained 2.3 gallon freshwater supply. Compact holding tanks, 2.6 or 5.0 gallon holding tank; enough for 30-50 uses (approximately for 5.0 gallon unit). MSD convenience - permanently installed for use with dockside pump-out facilities. High-strength ABS construction withstands demanding environments. Smooth finish is easy to clean. Comfortable full-size seat provides user comfort. Latching lid stays secure while underway. Attractive styling and colors - bottom tank tan; top tank white. Dimensions:
972: 13-1/8" W x 15-1/4" D x 12-1/2" H

Sealand T-Series Macerator Pump

Runs dry without harm. Up to 280 GPH capacity! The SeaLand T-Series pump solves the most serious problem associated with impeller-type macerator pumps - it can run dry without damage. Its patented bellows pump has no impellers to burn up, and still handles tough marine waste while drawing just 6 amps at 12 VDC. With the T12 pumps from SeaLand, discharging your tanks is now easy and reliable. Available in 12 and 24 VDC models.

Raritan Electro Scan Waste Treatment System

Electro scan consistently controls the electrodes to reduce power consumption by up to 36%. New LCD Display provides detailed information on system.

Benefits:

- Can be used with both manual and electric toilets.
- Generates its own natural disinfectant from salt water.
- Treats each flush as waste is generated.
- Discharges with treatment levels that are safe for environmentally sensitive areas.
- Easy to install.
- Not for use in Federal No Discharge Zones.
- Requires salt feed tank if unit is used in fresh or brackish water.

SPECIAL ORDER ONLY

Order No	Mfg No	List

Raritan Hold 'N' Treat Waste Treatment System

The Hold 'n' Treat combines holding tank use with overboard treatment.

Holds waste when in sensitive or no discharge areas and treats utilizing a Type I MSD in all other waters.

Benefits:

- Components can be added to existing equipment.
- Waste is conveniently stored until it can be disposed of legally.
- Eliminates trips to the pump-out station.
- Lock-out switch prevents discharge of treated sewage in no discharge zones.
- Can be used with the Lectra/San MC or Purasan Type I MSD's.

MACERATOR PUMPS

Whale Gulper 220 Toilet Pump For Holding

- Up to 18 ltrs (4.75 US gal) per minute.
- Virtually unblockable.
- Pumps unmacerated waste.
- Rotatable inlet and outlet allows flexibility when installing in awkward locations.
- Self priming up to 3 m (9.8 ft).
- Can be mounted in most convenient part of boat.
- Easy to maintain.
- Can run dry without damage.
- Large single diaphragm.
- Pumps a mixture of air and waste.

Order No	Mfg No	Voltage	List
353317	BP2552B	12 VDC	\$391.02
353328	BP2554B	24 VDC	\$402.62

Whale Gulper 320 High Capacity Waste Pump

- Faster drainage.
- Whale Gulper technology (non choke valve system for reliability).
- Easy installation.
- Easy maintenance (new patented, reinforced Ezi-clamp locking ring - simply twist and screw to lock pump head in desired position).
- Three foot design for easy and secure fit to uneven surfaces.
- More secure installation (wrap around securing strap means that pump stays in place even under extreme vibration conditions).
- Barbed connections (for either 19 mm (3/4") or 25 mm (1") hose size).

Whale Gulper Grouper 220 Non-Clog Electric Waste Pumps

- Up to 14 ltrs (3.7 US gals) per minute.
- Will run dry without damage and pump a mixture of air and water.
- Specially designed to pump waste water.
- Large single diaphragm.
- Virtually non-choke valves.
- Quiet running.
- No filter required.
- Self-priming up to 3 m (10 ft).
- Easy to install in confined spaces.
- Double outlet valve ensuring continuous flow.
- Multi directional head.
- Can be mounted almost anywhere.
- Low power consumption.

Order No	Mfg No	Voltage	List
353295	BP1552	12 VDC	\$271.16
353306	BP1554	24 VDC	\$279.04

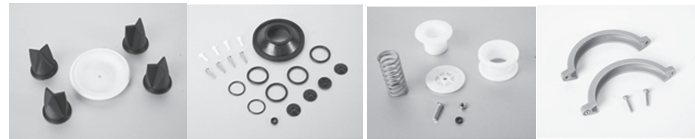

Groco 155 Series Waste Macerator Pump

- Installs into the top of existing holding tanks.
- Makes fast work of holding tank pump-out (17 GPM)
- Since waste is macerated before leaving the tank, smaller hose and overboard seacock (3/4") may be used in the discharge line.
- For ordering: determine tank depth in inches, measured from the top outside to the bottom inside. Order 155-6110-12 (10" = tank depth) (12VDC = voltage) Other depths and voltages available on Special Order basis.

Note: 155 Series will fit the same mounting used for the discontinued MPT or MPS series macerator pumps.

Jabsco Macerator Pumps

Jabsco macerator pumps are the ideal answer to simple holding tank pump-outs. The macerator section grinds waste into small particles so it easily passes through the pump's 1" hose barbed discharge port. The pumps are self-priming and can empty a typical 30 gallon holding tank in less than 3 minutes.

May be permanently installed onboard for easy holding tank evacuation when outside the 3-mile no-discharge limit. The intake port has both a 1 1/2" hose barb for easy attachment to waste hose and 1 1/2" male pipe thread to screw directly into a tank flange or other pipe fitting. Available in 12 VDC and 24 VDC heavy-duty models. The DC voltage pumps meet the applicable section of the USCG Electrical Regulation (Title 33, Chapter 1, Part 183, Subpart 1).

Jabco "Y" Waste Valve

Chemical and corrosion resistant polypropylene and stainless steel construction. Selector lever can be padlocked (lock not included) and/or sealed in either position. Ports can be rotated so discharge plumbing can be routed away in parallel, at 90° or in opposite directions, or either up or down without disassembly. Valve is supplied with both 1-1/2" (38 mm) ports (fitted) and extra 1" (25 mm) straight inlet port. Optional shaft extension allows valve to be mounted through a bulkhead up to 1-3/4" thick with only the selector handle exposed. Self cleaning design provides trouble free operation. Molded in flow direction indicator arrows. Easy access to three sturdy mounting feet for quick and simple installation. Easy access to valve – by removal of just three hex head machine screws, top cover and diverter assembly lift away from the body.

Forespar Vented Loops

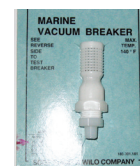

Will ensure that water will not siphon back into the marine head.

The simple valve system incorporated in the top of the loop allows air to enter the line when not in use, yet effectively seals as water passes through. Molded in glass-filled Marelon; will not corrode.

BacTANK 3

BacTANK3 Grey Water Rescue Treatment

This liquid product helps remove drain back-ups and waste build on sides of tanks. Hydraulic retention time is limited and the organisms with very high rates of activity are required. Greywater rescue has these microbes. Pour into greywater and holding tank. Let your nose be the guide. Do NOT put clorox or any harsh chemicals in the greywater tanks! It will destroy the ability for the Greywater Rescue microbes to work.

Sealand ECO Holding Tank Vent Filter Kit

Innovative concave shape of the SeaLand ECO filter assures that malodorous gases are completely filtered through activated odor-adsorbing media. The result is more thorough odor elimination and the assurance of more enjoyable boating. Though differently shaped, it is a direct replacement for previous SeaLand and Dometic vent filters, as it fits the same installation brackets as older models.

Much more ecologically friendly than previous SeaLand filters, as well as many other current filters.

Complete kit includes fittings for popular vent hose ID sizes: 5/8 in., 3/4 in., 1 in., and 1-1/2 in.
