SR-PRO-1

SR-XR111-1

STARFIRE-1

STINGER 1

### Stingray Hydrofoils

- Gets boats on plane quicker.
- Keeps boats on plane at lower speeds.
- Improves holeshots.
- Maximizes stabilization.
- Saves fuel.

Order No	Mfg No	HP Range	Mounting	List
243945	JR-1	Smaller Engines & Boats (9.9-40 HP)	Bolt-On	\$49.99
243901	SR-1	All Engines & Boats (40-300 HP)	Bolt-On	\$59.99
243912	SR-PRO-1	Increases Stabilization (40-399 HP)	Bolt-On	\$119.99
243934	SR-XR111-1	Heavier Boats & Pontoon Boats (40-300 HP)	No-Drill	\$149.99
243923	STARFIRE-1	High Performance Speed & Bass Boats (40-300 HP)	No-Drill	\$79.99
243956	STINGER-1	High Performance Speed & Bass Boats (4-300 HP)	No-Drill	\$59.99

### TH Marine Transom Support Plate

Made of high quality cast aluminum. This plate distributes the stress of the motor mounting bolts to protect the transom. A generic plate with no lettering is standard.

Order No	Mfg No	List
302862	TSP-1-DP	\$36.51

### TH Marine 5° Transom Wedges

- Fits all standard 4-bolt patterns.
- Full contact between engine and transom.
- 2-1/4" W - 11-1/4" L - 1-1/16" to 3/16" thickness.
- Sold in pairs.

Order No	Mfg No	List
302859	TW-2-DP	\$69.39

### TH Marine Transom Trim Control

The Transom Trim Control provides a weatherproof tilt control system at the stern area of the boat to facilitate placing motor support in position with one person. Switch can also be used for remote adjustment of hydraulic jack plates. The switch housing is molded black plastic with raised white letters and may be mounted on any flat surface, comes with 18" pigtail wire and installation instructions.

Order No	Mfg No	List
307597	TTC-1-DP	\$45.08

### Garelick Stainless Steel Auxiliary Motor Brackets

- Easy to lift and lower - stainless steel springs hold counterbalance motor weight.
- Transom mount locks and holds motor up or swings down for propulsion.
- Built in transom angle adjustment allows optimum motor performance.
- Fits all style motors - extra wide. Black poly mounting board for newer, wider style motor locking clamps.
- 4 positions locking height adjustment.
- Stainless mounting hardware and instructions included.
- Made of tough 304 stainless steel.
- Rated for motors from 7-1/2 to 20 h.p.
- Mounting board dimensions: 11-1/2" x 10-3/4" x 2"
- Mounting bracket dimensions: 7-5/8" x 7-7/8"

Order No	Mfg No	List
349863	71056	\$300.85

#### Insta-Trim Boat Leveler Trim Tab Kits

Insta-trim Boat Levelers provide a safe, comfortable, economical ride every time you leave the dock. You can correct a bow high or low condition with a simple flick of the rocker switch. Trim can be corrected on any shape hull – flat, round or deep “V”. Insta-Trim Boat Levelers are made of 12 gauge 304 stainless steel and guaranteed against electrolysis. Kit includes a motor with a thermo-overload, a pump with a built-in bypass and epoxy sealed solenoids for locking the tabs in position. Also included is a protective cover with a transparent reservoir, hydraulic lines, cylinders, brackets, rocker type switches, wiring, stainless steel mounting hardware, and two stainless steel tabs with hinges. The tab depths are available in 8 and 11 inch chords and the lengths vary depending upon the length of the boat. Dual cylinders are standard for 46 to 72 inch tabs. 12 VDC. (24 & 32 VDC available on special order.)

## ENGINE & CONTROLS

### BENNETT TRIM TABS • POSITION INDICATORS

#### Bennett Marine Hydraulic Trim Tab Kits

Hydraulic trim tabs are known for power, precision, and durability. Get the most from your boat, no matter what the load, speed or sea conditions. Using the helm control, you can adjust the tabs individually or in unison to create the perfect cruising attitude. Increase speed and fuel economy, smooth a rough ride, and get on plane faster.

- Get on plane fast, and stay on plane at intermediate speeds.
- Correct listing and uneven loads.
- Improve visibility and safety.
- Reduce pounding and eliminate porpoising.
- Low maintenance, long-term value, and ease of service.

Kits include: Two trim plane assemblies, one Euro-style Rocker Switch Control, a hydraulic power unit and all necessary wiring, tubing and hardware.

Order No	Mfg No	Boat Length	Engine Configuration	Trim Tab Size	List
713606	129E	15' - 19'	Single I/O, Single O/B or I/B	12" x 9"	\$777.89
713607	189E	19' - 24'	Single I/O, Single O/B or I/B	18" x 9"	\$836.74
713608	249E	22' - 27'	Single I/O or O/B	24" x 9"	\$866.70
713617	1212E	19' - 24'	Limited Transom Space or Extra Lift	12" x 12"	\$837.81
713718	1812E	22' - 27'	Twin I/O or Twin O/B	18" x 12"	\$866.70
713719	2412E	25' - 30'	Twin I/O or Twin O/B	24" x 12"	\$895.59

#### Bennett Marine Hydraulic M80/M120 Sport Trim Tab Kits

The M80 and M120 Sport Tabs are ideal for boats with limited transom space. The unique batwing design provides 30% more lift than conventional trim tabs. Balance loads, plane faster, increase efficiency and performance with Bennett hydraulic trim tabs - known for power, precision and durability.

- Get on plane fast, and stay on plane at intermediate speeds.
- Correct listing and uneven loads.
- Improve visibility and safety.
- Reduce pounding and eliminate porpoising.
- Low maintenance, long-term value, and ease of service.

Kits include: Two trim plane assemblies, two actuators, one Euro-style Rocker Switch Control, a hydraulic power unit and all necessary wiring, tubing and hardware. These items are not stocked and require 3-5 days to be received from the manufacturer.

Order No	Mfg No	Size	Description	List
730309	M80	8" X 10"	System Only	\$747.93
730312	M120	10" X 12"	System Only	\$801.43
730324	M80EIC	8" X 10"	With Indicator	\$1063.58
730335	M120EIC	10" X 12"	With Indicator	\$1117.08

#### Bennett Sport Tabs Parts

Order No	Mfg No	Description	List
730346	A1200SRC	Small Actuator Assembly with Rivet Clearance	\$105.93

#### Bennett Marine SLT Self-Leveling Trim Tabs Kits

A simple, durable, and affordable trimming solution for smaller boats. Quick and easy installation with nothing to do inside the boat - just mount the actuators and trim tabs on the transom and enjoy the benefits.

- Three mounting options to easily change lift.
- Plane at lower speeds and improve fuel efficiency.
- Eliminates porpoising and chine walking.
- Impose hole shot, reduce engine laboring and improve fuel efficiency.

Kits include: Two 14-gauge stainless steel tabs, two durable, spring-loaded actuators, necessary hardware. The items are not stocked and require 3-5 days to be received from the manufacturer.

Order No	Mfg No	Size	List
730404	SLT6	6" x 8" Tabs	\$139.70
730405	SLT10	10" x 10" Tabs	\$160.50

#### Bennett Marine BOLT Electric Trim Tab Kits

Balance loads, plane faster, increase efficiency and performance with Bennett BOLT Electric Trim Tab systems, built to outlast any electric trim tab system on the market.

- Get on plane fast, and stay on plane at intermediate speeds.
- Connect listing and uneven loads.
- Improve visibility and safety.
- Reduce pounding and eliminate porpoising.
- Seal design inspired by over 50 years of Bennett's proven success in actuator manufacturing excellence.

Kits include: Two 12-volt actuators with 6 ft. wire harnesses and waterproof connectors, two stainless steel trim planes (tabs) and mounting plates, two 20 ft. wire harnesses with waterproof connectors, Control NOT included. These items are not stocked and require 3-5 day to be received from the manufacturer.

## ENGINE & CONTROLS

### CABLE BOOTS • CABLE BOOT GROMMETS • RIGGING FLANGE • STEERING KNOBS • STEERING WHEELS

#### TH Marine Motorwell Boots

Functional motorwell cable boot that is easy to install. No longer is it necessary to split or cut your motorwell boot to pass cables through. This cable boot provides a fully open area to pass wiring and cables through and when rigging is complete simply pull cable tie snug around wires and cable to complete installation. Constructed of rugged vinyl that resists ultraviolet rays, gasoline and oil. Other manufacturer boots are made of rubber which will degrade in the marine environment. This cable boot is available in three sizes to cover all installation requirements.

Order No	Mfg No	Size	Color	List
233134	CB-2W-DP	2"	White	\$8.52
233135	CB-1W-DP	3"	White	\$9.60
233136	CB-4W-DP	4.5"	White	\$13.20

#### TH Marine Cable Boot Grommets

- Protects cables, hoses and wires from chafing.
- Flange fits into pass-thru hole.
- Cable boot snaps into grommet.

234540	40004	\$8.65

#### Stainless Steel Destroyer Steering Wheel

.304 stainless steel with black center cap. 5 spokes. 22° dish. 15" diameter. Fits 3/4" shaft.

Order No	Mfg No	List
730302	S-9002	\$128.83

#### Soft Grip Steering Wheel

Ideal for bass boats, sport boats and runabouts. Patented design provides a comfortable, firm grip. Contemporary styling with soft black PVC outer rim and high-impact, one-piece plastic inner core. Resists UV rays to prevent fading. Soft Grip is nonmagnetic so it will not interfere with compass readings. 3-3/8" deep dish. 13" diameter rim. NMMA approved.

Order No	Mfg No	List
244490	8315-4	\$56.93

#### Davis Lube II Stainless Steel Lubrication Steering Nut

Lube II allows sticky, hard to move steering rods to be properly and easily lubricated for smooth, easy steering action. The system includes a stainless steel lubricating nut with an oil seal and a grease (zerk) fitting. This lubricator's unique design keeps moisture and contaminants out while enabling you to pour or pump several types of lubricant in. Works for both mechanical and hydraulic systems. Fits all major US and foreign motors (7/8" x 14 pitch threads). Easy installation. Marine grade stainless steel nut for salt and fresh water use.

Order No	Mfg No	List

### SeaStar Solutions Safe-T QC Steering System

For power steered boats in which No FeedBack systems are not required. Offers the quick response of three-turn steering and easy installation with a patented, no-tools-required cable connection at the helm. For all power-assisted stern drive boats with wheels up to 16" diameter. Replaces all Teleflex Safe-T helms made since 1968 with little or no dash modifications. (Requires use of SSC62 QC steering cable.) For single station use only. Kits include: cable, helm, bezel and hardware. Standard 3/4" tapered steering shaft. Stainless steel cable output ends. Fast, easy installation: uses simple snap-in cable connection, Teleflex Quick Connect (QC) cable and industry-standard Safe-T mounting hardware. Meets A.B.Y.C. standards. Meets N.M.M.A. certification requirements.

### SeaStar Solutions BayStar Compact Steering

BayStar Compact system is designed to fit even the narrowest of splashwells. For outboard boats under 150 hp total, BayStar provides hydraulic steering performance for the lower horse power range. For outboard engine applications over 150 hp, choose one of the SeaStar® family of products.

#### Features

- Patented No FeedBack™ Steering lock valves.
- 5 turns lock-to-lock.
- Up to 150 horsepower (total).
- Available either as separate components or as a complete system ready to install.
- Fixed cylinder.
- BayStar hydraulic tubing cut to suit application.
- Tilt option available.
- Requires 3" (76mm) cut-out hole in dash.
- Requires 21" (534mm) splashwell width.

Kit includes: Helm, Cylinder, tubing, oil.

### SeaStar Solutions I Hydraulic Steering

Single and multiple non-power-assisted outboard engine applications up to 350 hp for singles (700 hp for counter-rotating twins). Patented "Pivot" design allows independent engine tilt in dual engine installations.

SeaStar Outboard Hydraulic Steering offers three models of steering cylinders to suit most applications. The standard and most commonly used model is the Front Mount Steering Cylinder HC5345/47/48/58. Before ordering it is necessary to determine the best possible application for your boat, taking into account the hull design, speed and usage of the boat. Keep in mind that engines today have become larger, more powerful and heavier than in the past.

#### Features

- Patented No FeedBack™ Steering lock valves.
- Low friction hydraulic steering system.
- 5 turns from lock-to-lock (single cylinder).
- Compact helm has only a 4-7/16" foot print needs only 3" dash hole (Tilt requires larger hole).
- Tilt option available.
- Available either as separate components or as a complete system ready to install.
- Standard 3/4" tapered steering shaft.
- Various alternative helm and cylinder combinations available (details available on request).
- Multiple engine applications require the use of a tie bar (details available on request).

## ENGINE & CONTROLS

### TELEFLEX SEA STAR SYSTEM PARTS • HYDRAULIC OIL • MICROCOMMANDER CONTROLS

Like Us On  
facebook

#### ZF MicroCommander Controls

ZF MicroCommander Controls

(Formerly Mathers)

For complete control of engine speed and direction, ZF MicroCommander is the absolute leader in marine propulsion control systems.

Engineered to handle even the toughest maneuvering situations, MicroCommander is proven, through thousands of installations, to be unequalled in electronic propulsion control.

Superior to mechanical and hydraulic controls with their attendant "throttle creep" and necessity for constant adjustment, MicroCommander is designed for vessels ranging from 25' to 100' using single or twin engines from 100 to 1,000 horsepower. A single lever controls both clutch and throttle for each engine.

Within the microcontroller, or actuator, electronic impulses are converted into mechanical output to operate the throttle and clutch. Proprietary software gives the operator precise, instant response throughout any maneuver. Under any conditions.

Safety and protection for engine and transmission, even with the most inexperienced operator. MicroCommander's sequential operation allows maneuvering from full ahead to full astern in one quick shift without risk of damaging the drive train or engine.

Up to five control stations.

Each system includes one control head with one or two levers to control single or twin engines. As a popular option, up to four additional control heads can be connected to the actuator. Cockpit, bridge, bow or stern, MicroCommander control stations can be installed wherever desired. Station transfer buttons efficiently switch control from one station to another.

Engine Synchronization.

Twin engine synchronization is another popular option which provides two benefits. First, it increases comfort by reducing noise and vibration. Second, it increases operating efficiency by reducing fuel consumption. This feature is enabled by depressing the transfer button, giving you the ability to turn it on and off at your leisure.

Trolling Valve.

Our optional trolling actuator allows the skipper to control clutch slip while reducing vessel slow speed. A full range of shaft speeds is available from the same control.

Hand-Held Remote Control.

As one of the up-to-five control stations available with MicroCommander, our optional hand-held remote control offers all the functions of our fixed stations from anywhere on the vessel. This portable remote can be plugged in at different receptacles throughout the boat allowing the skipper to move about the boat at will while still retaining complete control. With emergency engine shutdown and built-in station transfer buttons...even bow and stern thruster control...the hand-held remote brings complete freedom to the skipper on the move.

Required Components

1. Actuator for each engine
2. Control and transfer button for each station
3. 8-conductor cable between control levers and actuators.
4. Actuators connected to engines with standard push-pull cables; Morse 33C.

Options

1. Hand-held Remote Control
2. Engine Synchronizer
3. Trolling valve control
4. Multi-station controls (up to five stations)
